INTRODUCING CCRC'S TO PROVIDE CONTINUOUS REVENUE TO THE CHURCH

Considered by many to be the ideal senior living option to "age in place." CCRC stands for Continuous Care Retirement Community and is a combination of independent living, assisted living, and nursing home facilities located in one place

CCRCs give seniors the ability to live within the same community throughout their later years by providing a comfortable and familiar environment.

CCRCs provide consistency with the people, surroundings, and the services. They maintain the same quality of life, activities, and interactions with their neighbors and offering amenities, activities.

Services offered include health services, meals, personal care, housekeeping, transportation, and emergency help. In addition, the communities are chock full of

social and educational activities.
Active adults can live independently within

these communities in single-family residences.

Over time, when they begin to need help, or their lifestyle changes, the community is there for them. They may move to an assisted living or skilled nursing area as their needs change.

Memory care facilities may also be provided to assist in the care of those suffering with Dementia or Alzheimer's.

This is one of the construction projects of A2O Development in conjunction with A2O Financial. To view a presentation of a proposed project, please visit our website at alphatoomegacssi.com and look under *Publications*.
